

LESSON 9

THE CRYSTAL BALL

KEY CONCEPT:
MENTAL CREATION PRECEDES PHYSICAL CREATION

HABIT 2: BEGIN WITH THE END IN MIND

tells us to picture the future—today, tomorrow, and 10 years from now. Who are we? What do we want? These answers should come from trying and learning new things, not from other people. When we create a picture first, we are able to make choices that lead us to our destination.

Complete the sentences.

When people describe me,
I would like them to use words like...

One thing I would like to start doing is...

One thing I would like to stop doing is...

My biggest dream is...

"WE MAY BE YOUNG AND WE MAY NOT KNOW EVERYTHING, BUT WE ARE OUR OWN PERSON AND WE HAVE OUR OWN MIND AND OUR OWN THOUGHTS. WE KNOW WHAT IS MOST IMPORTANT TO US."

- JORGE

Imagine...

You have a crystal ball that allows you to see yourself in 10 years.

What have you accomplished?

Did you learn to ski? start a band? graduate from college? move to a different place? volunteer?

Use the **BRAINSTORMER** to gather your ideas.

SHARE **WHAT YOU** **KNOW**

Reteach the importance of deciding who you are before outside influences do it for you.
